

Exploration Seismic

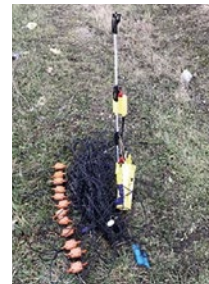

Structural 2D/3D Exploration of the subsurface

Our services

- 2D/3D seismic exploration
- On- / Off-shore- /shallow water -/transition zone seismic exploration
- High resolution seismic
- Wired and wireless seismic
- PPV monitoring

Targets

- Exploration of deep Geothermal deposits
- Exploration of oil & gas deposits
- Exploration of other deposits of raw materials

Recording equipment suitable for different type of field applications

Seismic vibrators

Recording equipment

- AutoSeis ~ 40,000 channels
- Sercel WiNGS ~2,000 channels
- Sercel 428XL ~ 10,000 channels
- Summit X 1 ~ 1,000 channels

Seismic Sources

- Vibrators
 - 9* AHV IV
 - 5* Hemi Mertz M12
 - 1* UniVib
 - 1*Mini Vib
- Dynamite
- Vakimpac
- Mjólnir
- Airguns
